Stunning designs and the feeling of more space will enhance your lifestyle and improve the value of your home

When the harsh British winter is in full swing, it's vital that you choose doors which can withstand what it throws at us. That's why our PVC-U doors are manufactured with a square-edge profile which gives a superior seal along door edges, making them draught and weatherproof. This means behind their striking looks, your folding sliding door is robust and built to last - **giving you many years of pleasure.**

ORANGERIES

TRANSFORM YOUR LIGHT & SPACE

The Polar Bear Orangery Range features traditional and contemporary designs, falling somewhere between conservatory and traditional extension styles. With their brick pillars, orangeries offer more privacy than conservatory styles and the interior height provides a breathtaking focal point through which light floods in to your home.
