THE EXCLUSIVE  
RESIDENCE  
COLLECTION

# Classic, Sophisticated Performance with a Twist...

...the Exclusive Residence Collection window system supplied and fitted by Polar Bear Windows is designed to replicate 19th Century timber windows, but fuses traditional aesthetics with modern materials to create a window that is both elegant and energy efficient.

The perfectly flush exterior recreates a true timber alternative, whilst the interior is stylish and decorative, producing a classic home feel. The modern material is virtually maintenance free; no painting or staining required. Cleaning your windows needs minimum effort meaning they look newer for

longer, leaving you time to do more of the things you love.

Whatever period your property is we know your Exclusive Residence Collection windows will look great, as we recreate historical design and considered conservation guidelines, which authentically replicate the traditional timber sightlines. You'll immediately notice the benefits of the thermally efficient 9 chamber design and modern glazing, whilst keeping the character of **your home, traditionally transformed by Polar Bear Windows.**
