Accredited and governing bodies

One of the UK's leading Insurance Backed Guarantee providers for deposits and installations.

CERTASS

There are two main competent person self certification schemes; CERTASS and FENSA. Some projects will need a certificate from either of these as proof that the works meet building regulations – which is also necessary if you choose to sell your property. Polar Bear Windows use CERTASS as they hold more accreditations and have provided unparalleled support to us and our customers over the years.

Promotes the importance of quality of work and service within the trades.

Recognises reputable traders who successfully pass an assessment process carried out by trading standards professionals.

Recommended and trusted tradesmen who have been vetted and monitored and meet set standards of trading.

Local, trustworthy and reliable tradesmen, working to Government endorsed standards.

Rock Solid Composite Doors are exclusive to Polar Bear Windows. See page 14.

Polar Bear Windows at your service

Our ethos has always been to improve the living standards of our customers through delivering quality-assured products and providing excellent customer service.

With almost 30 years industry experience and rated the best in Bristol for customer satisfaction, we are sure you will be happy that you chose Polar Bear Windows.

For extra peace of mind – we offer a 10 year guarantee and 10 year security pledge to ensure you are protected for years to come.

We started fitting windows, but today we are delighted to be offering you a vast array of home improvement products and services.

Once you have chosen what product or service you are interested in, contact a member of our friendly sales team for more information or to get a free quote.

From our family to yours

Make your dream a reality

Mark started fitting windows when he was 17 years old. After gaining years of experience and a good insight into the industry he became increasingly frustrated with sales gimmicks and of lack transparency in the window industry. He decided to set up Polar Bear Windows and championed three core principles which together would deliver an amazing experience to customers.

Always putting the customers needs first

Perfect fit products based on customer needs and specifications combined with a wide range of designs to cater for every taste.

Providing the best service

Qualified, experienced and experts in our field. We have a passion for providing an unrivalled customer experience.

Quality products without compromise

High-specification products equipped with the best features on the market at affordable prices.

Mark is proud of his twin sons George and Harry for joining the business after completing their studies. Both have started with the basics and are working their way through the business; getting a valuable insight into running a business. Following in their fathers footsteps by putting the customer at the heart of everything they do.

The company has grown from strength to strength and today has a 30 strong team; who work seamlessly together to offer a wide range of home improvement products; transforming customers living standards.

Polar Bear Windows has been rated the best in Bristol for customer satisfaction. Mark would like to thank his fantastic team for working hard to make this possible.

Submit a quote online or request a home visit from one of our friendly designers to start your Polar Bear Windows journey today.

Mark Price

Managing Director

“

Great company to deal with from start to finish. Design process was professional with no hard sell just advice! Fitters were faultless and very clean. Massive reduction in heating oil bill already and house looking great. Would recommend.”

A. Langley, 2019

You are at the heart of everything we do

Voted the best in Bristol for customer satisfaction

Our success did not happen over night but has taken years of hard work and determination to be able to offer you an award-winning service, quality assured products and the best price.

Don't take our word for it, we have over 1,000 positive reviews online from previous customer experiences. From a small window replacement to transforming a whole house; we are able to deliver a quality service without compromise.

 9.8/10 positive reviews Checkatrade.com	 4.9/5 positive reviews 	 4.4/5 positive reviews Google
 4.9/5 positive reviews facebook	 5/5 positive reviews eKomi	 5/5 positive reviews 

We have added up all the positive reviews from the leading installation companies of windows and doors and Polar Bear Windows has come out on top consistently across each platform above.

Top tip

Check reviews to see what sort of service you can expect from a company. Avoid disappointment, hassle and stress by choosing a top rated company.

Manufactured in Bristol

Industry leading quality and supporting local communities with by manufacturing in Bristol.

Working sustainably

We have implemented various processes to reduce the amount of strain we, as a business, have on the environment. We recycle as much waste as possible and source products from accredited suppliers, who share our passion for working sustainably.

Journey

If you have had a new-for-old installation we will register your installation with CERTASS, you will receive your certificate in the post.

After-care
You will receive after-care instructions which will advise you on how to prolong the products lifespan.

Enjoy your new product

**10 YEARS
PEACE OF MIND**

We are confident in the quality of our products and installations that we offer a 10 year comprehensive guarantee on windows, doors and conservatories.

All our windows and doors (including the ones on a conservatory) have a unique 10 year security pledge.

If you suffer a forced entry gained via the multi-point locking system on any window or door supplied and installed by us, we will replace the damaged product and install it free of charge. Full details on our website.

Full details on our guarantee and security pledge are on our terms and conditions

Rarely write positive reviews but I was super impressed with Polar Bear Windows. Competitive price, not sales pitch, really good communication and really happy with the fitting and the product. I have used other companies for windows and have been very unimpressed. I would use again” D. Mills, 2019

I am very satisfied with my windows and doors. The installers were careful and professional. The office staff were very helpful and patient with my many queries. The aftercare service has been exceptional too.” T. Wilson, 2019

Quality assured

Windows

Take up the window of opportunity and transform your home with double glazed uPVC stylish windows

All our windows are made to measure and installed professionally to ensure the product seamlessly integrates with your home. Our uPVC windows are rated A+ for energy efficiency as standard. Thermal break glass and treated surface (soft-coat) ensures the highest thermal rating and noise reduction possible for a warmer and quieter home.

No more rattling, sticking, draughts or regular maintenance

Security

The security of our customers is very important to us which is why all of our windows come packed with security features like multi-point locking systems.

Virtually maintenance free

All our windows are virtually maintenance free, saving you time, hassle and money. To keep them looking new, occasionally wipe with a damp cloth and lubricate moving parts.

Noise reduction

The properties of our glass, frame and an argon filled cavity ensures a good level of sound proofing. If you live next to a busy road we recommend acoustic glass (6.4mm toughened/ laminated windows) which is specially designed to reduce noise pollution allowing you to enjoy a quieter home.

Quality throughout

All our windows take advantage of the latest innovations, using high-grade materials and are constructed for durability and a long product lifespan.

Best in class glass

A+

ENERGY

EFFICIENT

A rated energy efficient

Energy efficient double glazing significantly reduces the amount of heat lost through your windows, meaning rooms warm up quicker and stay warmer for longer; ultimately reducing your energy bills and is more environmentally friendly.

Old windows can let heat escape.

Quality energy efficient windows can dramatically upgrade your energy rating

Our competitors offer Planitherm as an upgrade option however we offer it as standard.

The special clear coating on the glass reflects away heat from the sun, while optimising heat retention in the room. The transparent, laminated layer creates a strong barrier, dampens noise and blocks UV light (which helps prevent furniture fade).

Most secure style of window

1 Window specification

We are constantly improving our processes to ensure you receive the best possible products. Our current windows are the best we have ever offered.

Casement windows benefits:

- 'A+ Rated' for energy efficiency
- Planitherm One glass with a 1.0 U-value
- Rollers for smooth day-to-day operation
- Weather resistant seals
- Robust multi-point locking system
- Secured by quality construction
- Multi-chambered cross-section which helps to prevent heat loss
- Endurance tested for durability
- Corrosion resistant handles, hinges and shootbolts
- Exceeds the PAS24 test
- Virtually maintenance free

For a safer, quieter, cosy home

2 Colour

White windows are by far our most popular colour, however we do offer an extensive range of colours and finishes.

Window profiles

Casement windows

The most popular choice for new and replacement windows in the UK is casement windows. An extremely versatile window which can be opened fully depending if its side-hung, top-hung or a combination. Casement windows can be fitted into a bow or bay structure.

Casement windows are A rated for energy efficiency, versatile and offer excellent ventilation.

Our manufactured in Bristol casement windows are practical, stylish and have all the benefits of modern uPVC windows.

Manufactured
in Bristol

All the quality at a fraction of the price with our deal of the month

Bow windows

Combining four or more casement windows projecting beyond the exterior wall of a home, to provide a wider view of the garden/street.

Bay windows

Bay windows protrude outwards from a room increasing the surface area of the wall, and therefore allow more light in and offer greater views of the outside. We can fit casement, flush and sash windows in a bay structure.

Our bay windows are practical, stylish and have all the benefits of modern uPVC windows.

Sash windows

Popular in the Georgian period for not protruding when open and therefore not causing an obstruction on the street.

Smooth operation without windows slamming shut. Our sash windows are practical, stylish and have all the benefits of modern uPVC windows.

No more
rattling, sticking,
draughts, painting
or regular
maintenance

Flush windows

Flush windows sit flat with the frame when closed which resembles period timber windows. Due to its minimalist aesthetics the flush windows have become increasingly popular for modern homes.

They are a lower cost of window with higher thermal benefits than timber – in addition to being fully secure.

Our flush windows are manufactured in Bristol.

You can upgrade your casement windows with A+ rated flush windows which are practical, stylish and have all the benefits of modern uPVC double glazed windows.

Quality assured

Doors

Most intruders gain entry to a property through a door. Ensuring you have a high-security door means your home and family are protected.

All our doors have the following benefits as standard:

Security

The security of our customers is very important to us which is why all of our doors come packed with security features to include multi-point locking systems.

Locks

A door is only as secure as its lock, that is why we use industry leading cylinders from ULTION (3 star versions which is the highest rating).

Virtually maintenance free

All our doors are virtually maintenance free, saving you time, hassle and money. To keep them looking new, occasionally wipe with a damp cloth and lubricate moving parts.

Quality throughout

All our doors take advantage of the latest innovations, using high-grade materials and are constructed for durability and a long product lifespan.

Weatherproof

All our doors have been designed to withstand the adverse British weather conditions throughout the year.

ULTION

Protect your family and home

The difference between a standard lock and a 3 star cylinder lock can be the difference of a safe home and a successful forced entry.

Benefits of ULTION 3 Star locks:

- 8 drill defences
- Anti-snap, anti-drill, anti-pump
- Core that is 25% denser than iron
- Most locks have 6 pins, ULTION has 11
- 295,970 key combinations
- Secure by Design approved
- Sold Secure approved - tested by locksmiths

Rock Solid Composite Doors

Extensive range of beautiful composite doors exclusive to Polar Bear Windows. See page 14.

Enjoy inside-outside living with doors that offer great visibility of the garden and fill your room with natural light

View our recent installations at polarbearwindows.co.uk

French doors

All the modern benefits of uPVC doors including enhanced security, energy efficiency, durability and virtually maintenance free with the style of classical French doors.

We supply french doors in a range of colours and finishes for the frame and handles. Astragal bars or leaded options also available.

French doors come in uPVC as standard but we also have an aluminium range.

Had french doors fitted today to replace old patio doors. They were fitted by Mark, I am very pleased with the work carried out. Polar bear windows have been easy to deal with from start to finish! 10/10. ”

P. Mears, 2019

**10 YEAR
GUARANTEE**
ON ALL DOORS

We can expand a window opening into french or patio doors to improve accessibility.

Patio sliding doors

The sleek panels of glass allow the room to be filled with natural light which you can benefit from throughout the year.

Patio doors do not need clearance to open/close making them perfect for when space is limited in a room.

Patio sliding doors come in uPVC as standard but we also have an aluminium range.

Quality assured

Composite doors

Secure your home and family

Utilising the benefits of several different materials to provide great strength, durability and stylish looks. Composite doors are the new standard in door innovation and if security is important to you – you shouldn't look anywhere else.

Rock Solid Composite Doors are a premium door range at an affordable price.

Rock Solid Composite Doors are exclusive to Polar Bear Windows

Premium composite doors packed with security features throughout and style to suit your home at an affordable price.

- Extensive range of designs and style
- 10 year guarantee
- High security multi-point locking system
- Industry leading ULTION 3 star locks, see page 12
- High-density foam core which provides better soundproofing and insulation than timber. Timber core also can warp and bend if exposed to moisture
- Internally glazed and multi-chambered
- Virtually maintenance free
- High performance door hinges
- High performance weather-seals
- Steel reinforcement
- Excellent in both sound reduction and heat retention

10 YEAR GUARANTEE
ON COMPOSITE DOORS

“

Everything from choosing new front door, to fitting it was excellent, all staff very polite and helpful. Mark installed the door and was excellent very professional, clean and tidy. Very professional, clean and tidy. Good value for money, prompt service. ”

Frances, 2019

FROM
£950

Manufactured in Bristol

Step by step to your dream door

1. Designs

Choose from a wide range of stylish doors. You can also add top-lights or side panels.

Design your door on our website

2. Colour

You can mix and match colours on the outside and inside of the door and frame. You can also use any RAL colour.

3. Glass

Add style to your door with stained, decorative, obscured/ textured glass designs.

4. Door furniture

Extensive range of high quality, durable door furniture in a choice of finishes.

High-quality aluminium

Bi-folds

Bi-fold doors slide open and are made from a series of panels (one being the access door) that fold up against the wall (concertina style).

Durable, excellent thermal efficiency, weatherproofing and security explains why Bi-folds have become popular in recent years.

Aluminium is 3 times stronger than uPVC making it ideal to hold large panels of glass. The stronger profile also means the frame can be slimmer allowing more uninterrupted views of your garden.

“**Bi Folding Doors fitted today... great experience we have had from initial consultation through to choice of products to delivery & installation by a very slick professional team so all round very happy and definitely would recommend contacting Polar Bear**”

M. Yarde, 2018

10 year guarantee on product and labour on all our conservatories

Inside outside living

Enjoy your garden with home comforts

A conservatory is a structure which has a combination of products. Choose from French, Patio or Bi-folds doors and Casement or Sash windows. Our conservatories are fully bespoke to ensure you get a space perfect for your needs.

You can choose different conservatory side walls, options include panelled-bottom, fully glazed (from top to bottom) or a dwarf wall (short wall) which can be bricked to match existing brickwork of the rest of the house. We also have options for lights and plug sockets.

Free home no-obligation appointment

During the home visit with our friendly designer, you can expect expert advice, honest recommendations and industry insight about the products you are interested in. Exact measurements will be taken to enable us to give you an accurate quote. We do not use pressured sales techniques and are happy for you to let us know when you have come to a decision in your own time.

Replacement conservatory. A professional team providing outstanding service at all times along with a great product range and competitively priced. The surveyor and installation teams worked to a very high standard along with care and compassion for our home. ”

J. Godwin, 2018

**10 YEAR
GUARANTEE**
ON CONSERVATORIES

Victorian conservatory

Ornate detail top options, pitched roof and bay front make Victorian conservatories a popular option. The angled bay front creates softer protrusions from the house compared to a flat front conservatory.

Edwardian conservatory

Symmetrical build, clean lines and 3 sides hipped roof with ornate ridge detail on top. Very stylish conservatory for you to enjoy all year round.

Gable conservatory

Influenced by Georgian styles, the structured appearance with its symmetrical structure, pitched roof, ornate detail and flat vertical front gives the gable conservatory impact and grandeur.

Many homeowners opt for decorative glass features on the panel above the doors, with a sun-rise being the most popular.

+7% house value

As well as lifestyle benefits of getting a new conservatory, you can also enjoy up to 7% increase to your house¹ value.

Our conservatory designers will help you design every aspect around your needs so that the finished construction meets your every expectation.

1) <https://www.telegraph.co.uk/finance/property/buying-selling-moving/7906602/Phil-Spencers-top-20-ways-to-add-value-to-your-home.html>

We can create a CAD design to help you visualise your new conservatory

Lean-to conservatory

Flat angled roof that slopes outwards makes the lean-to conservatory suitable for spaces with height restrictions. The simplicity in the design means lean-to conservatories are great value for money.

Custom conservatory

Often referred to as a P, L or combination conservatory, you can mix existing structures to create a truly unique space. If you have a larger garden and want more liveable space – a custom conservatory is a great choice.

Gable L-shape custom conservatory

Create a panoramic room

Guardian Warm Core Roof

Insulated tiled roof helps regulate the temperature in a conservatory all year round

Industry leading solutions for an insulated tiled conservatory roof

New tiled insulated roof will compliment the aesthetics of your home seamlessly. A tiled roof creates the appearance of an extension to your conservatory which many homeowners find desirable.

A Guardian Warm Roof is a brilliant way to revitalise your tired old conservatory and bring a new lease of life to your home. Creating a new space which isn't just more desirable, but more importantly a comfortable usable space you can enjoy all year round with a host of extras and finishes available.

Guardian warm roof

UK market leaders for tiled conservatory roofs, specially designed to keep your conservatory from overheating in the summer and retain heat in the winter. Other benefits include:

- Insulated soundproofing
- Strong and lightweight aluminium frame
- 100% weather-tight
- Ventilated roof
- Superior U-value of only 0.18 W/m.K
- Guardian tiles or slate options
- Installed in 1 to 3 days depending on size

Guardian tiled roof is suitable for old and new conservatories depending on our surveyors structural inspection.

Transformation videos

<https://www.polarbearwindows.co.uk/products/guardian-roof>

Sculptured roof

A stylish option which gives a room a sense of grandeur, a sculpture roof allows more light into the space.

Building control approved

High performance insulation with Building Control approval makes Guardian Warm Core Roof a great option.

Range of colours to choose from

Get a tile colour which matches your current roof to create a complimentary look.

Extra room to do what you enjoy

Guardian extensions

If you love your home – get more out of it with a new extension. We take care of the whole process saving you time, money and hassle.

Perfectly blends with your homes appearance

Fully bespoke space

Whether you want to extend an existing room or create a new space – we can help create a space which you can enjoy everyday.

10 day extension

We have removed the stress of getting an extension. We manage the whole process, from design to the finishing touches. After the base is installed it takes approximately 10 days to complete the installation.

Base

Our pre-fabricated foundations sit on a concrete pad and carries a 25 year structural guarantee. They are quicker to install and a cost effective solution for extensions or conservatory bases.

Walls

Choose from panelling, windows or bricked walls.

Guardian insulated tiled roof

A great way of regulating a rooms temperature is with a Guardian roof which keeps cool in the summer and cosy in the winter.

Upgrade products

Allow natural light and improve your view of the garden with bi-fold doors, french doors, patio doors and windows.

Finishing touches

It is important to create a space which you can enjoy everyday, that is why you add finishing touches to your extension like spotlights, plug sockets and radiators.

The process

Structure

The most important part of any build is the structure. Using innovative processes, quality materials and trained fitters/builders we create a durable, insulated space which meets all UK building regulations.

Space with a view

A wide range of products that can be added to improve visibility and accessibility.

Insulation

Extension is fully weather-tight and will feel like any other room in your home.

Appearance

All internal and external features can be tailored around your needs. Your extension will blend beautifully with you home.

Proudly working with:

Book your home appointment today

Create amazing spaces

Orangeries

Open up your extension to natural light with an orangery which has a roof that is around 50% glass.

Completely bespoke orangeries

While traditional extensions can feel boxed-in and a conservatory too over-exposed, an orangery/ skyroom has the perfect balance. Open airy space with solid bricked walls and luxury touches throughout.

Construction is done as a standard insulated extension, however bi-fold doors (see page 16), roof lanterns (see page 29) are added to flood the space with natural light.

We manage the whole project from start to finish to ensure the installation meets building regulations and more important your expectations.

Light fitting/switches, plug sockets, radiators can also be installed to ensure your new space is ready for you.

Skyroom is identical to an orangery but has an all glass roof

+11% house value¹

As well as the lifestyle benefits of getting a new extension, you can also enjoy up to 11% increase to your house¹ value, which is a great return on investment as our prices start from £24,999²

1) <https://www.telegraph.co.uk/finance/property/buying-selling-moving/7906602/Phil-Spencers-top-20-ways-to-add-value-to-your-home.html>
2) Priced based on 3x3 structure. Including lantern roof, bi-folds and windows

Stargaze in style

Roof lantern

No orangery or extension is complete without a sky view created by a roof lantern. This popular choice is a modern way of adding character and style.

Slimmer profiles mean uninterrupted views

Our unique system design is durable, light and has a 40mm aluminium frame. Rafters create slim, elegant roof profiles with excellent thermal performance. Compared to conventional roofs sold by our competitors, our roof lanterns reduce the visible width and sight lines of rafters by 30% and the main internal feature ridge by 70%.

Where to start?

Converting an existing flat roof to a stylish roof lantern couldn't be easier with our hassle-free service. One of our friendly surveyors will visit the property to take measurements and ensure the building can hold the load of a roof lantern.

Quality designed to last

Aluminium

Benefit from a superior material

◀ Frames can be any colour of your choice

When innovation meets elegance

Aluminium is naturally stronger than uPVC and does not need reinforcements which allows for smaller profiles. Its strength also accommodates larger glass panels giving you an increased uninterrupted vista.

Strong & light

◀ Up to 50% slimmer than uPVC

Products available in aluminium

Casement windows

Bi-folds

Patio doors

French doors

Modern aluminium products offer superior quality over uPVC and are fast becoming the material of choice for home improvements.

- Up to 50% slimmer profiles create uninterrupted views
- Aluminium windows do not swell, crack, split or warp over time ensuring an extended product life.
- Weather resistant under a range of severe environmental conditions.
- Aluminium is 3 times stronger than uPVC and 4.3 times stronger than wood.
- Highest recycling rates compared to any other metal. The recycling process of aluminium requires just 5% of the initial energy.

45 years lifespan

Aluminium products are expected to have a life expectancy of 45 years¹ if maintained.

Saving you money on expensive replacement products

Windows, doors and conservatory repairs

It is important to maintain products if you want to fully benefit from their features and prolong the lifespan.

Repairing issues prevents them from developing into larger, more expensive problems to fix. We repair windows, doors and conservatories (excluding roofs).

Faulty products also compromise the security of your home and could invalidate your insurance in the event of a burglary.

Free quote & 12 month guarantee

We repair the following:

- Handles
- Hinges
- Locks
- Misted glass
- Broken glass
- Frames
- Seals
- Panelling
- Realignment

“...results are frankly amazing.

Well I came home and was astonished by the work that had been done. New easy to use, smooth locks and handles have been fitted to all the windows, colour coordinated...

And the best part is the cost, I couldn't of replaced one small window for the same amount, which is what I thought I was going to have to do! ”

R. Mckenzie

Fascias and soffits

Finishing touches

By replacing your roofline with our quality uPVC cladding and bargeboard products you will be one step ahead of the game. It will never need painting and will not rot, crack or flake. It will maintain its good looks for years to come and protect the exterior of your home.

uPVC fascias, soffits and guttering means your home stays presentable throughout the year.

Flat roofs

British weather proof

If your flat roof porch, extension or garage has seen better days, you might want to consider a new fully weatherproof flat roof.

A damaged roof can let water in which can lead to damaged walls such as mould and rot on timber and crumbling bricked walls. All our flat roofs come with guarantees on products and installation for extra peace of mind.

Driveways

Drive away with a new drive

Improve your homes kerb appeal by getting a new driveway, path or patio area. Enjoy the benefits of virtually maintenance free, quality and durable driveways, installed by professionals.

Bricked driveway

Printed concrete driveway

Are you making the most of your garden?

Premium made-to-measure rooms

Bespoke garden rooms

To get the most out of your garden room, consider what the space will be used for and what features will help you get the most out of it.

All our buildings are made to measure. Whether you are looking for a garden art studio so that you can enjoy your hobby, a home gym to work out in privately or a garden office to escape the daily commute, we are flexible and can create a design that suits your needs and budget.

Our insulated bespoke buildings are durable, weather proof and thermally efficient; which ensures your new space can be enjoyed throughout the year and for years to come.

What would you use yours for?

Turn an empty section of your garden into a productive space with a modern garden room. Each room is built from scratch and therefore each element can be tailored around your needs.

Premium interiors

We do not just do outdoor spaces, we are experienced in renovating indoor spaces too. We offer a complete bespoke service in the following areas:

- Removing walls (for open plan living)
- Bathroom installation
- Kitchen installation
- Flooring and tiling
- Electrical work
- Plumbing

Improve your living standard and increase your house value.

Quality installations with a high level of attention to detail, giving you a space that can be enjoyed from every angle for years to come.

“

Just had Polar Bear Windows complete a new garden gym. 100% from start to finish. Top quality job, if your thinking about it give them a call you won't be disappointed. ”

M. Spiring, July 2018

Maximise the potential of your home

Finishing touches

As part of the design process you will have the option to install internal/external lighting, plumbing, heating, tv cables, plug sockets, guttering and much more.

Planning required

As a fully bespoke service we can tailor your modern garden room around building regulations. Please check with your local council for up-to-date and relevant guidelines which could apply to you.

The green polar bear

Watch the Polar Bear Windows animated story on our website or facebook/ YouTube channels.

Green principles in action

We have implemented various processes in an effort to reduce the amount of strain we, as a business, have on the environment. We recycle as much waste as possible and source products from accredited suppliers, who share our passion for working sustainably.

uPVC products

Our uPVC products can be recycled. The PVC is cut and ground down into granules which are in turn manufactured into other plastic products.

All our components are manufactured to the ISO14001 environmental performance standard.

All our windows, doors and conservatories have excellent thermal performance to reduce heat loss. Which will help to lower energy bills and is better for the environment as you will use less energy to warm your home.

Aluminium products

Highest recycling rates compared to any other metal. The recycling process of aluminium requires just 5% of initial energy.

The efficiency of thermal performance in aluminium is comparatively higher than timber or uPVC and is more durable which ensures a longer product lifespan and in turn means less waste.
